

Directions to Los Olivos Casa #3A (map on next page)

PLEASE NOTE: *viewings are by appointment only!* Please call **Robert Bichlbauer** at **332-164-5301** (cell) to schedule a viewing.

Joining the carretera, near the east end of Ajijic, is the North-South running **Calle Revolución**. This is the street where the Wednesday *tianguis* (market) is held. It's bounded on the east by **La Floresta** (on both sides of the carretera), and on the west by **Plaza Bugambilias** on the south side (lake side) of the carretera, and the **Z-Gas Centro de Servicio** on the north.

Turn north on Revolución (away from the lake, and up the hill). You'll know you're on the right track when about half a block up you see a tree growing in the left side of the road, reducing it to a single lane until you pass it.

Continue up Revolución about two long blocks (you'll go over two topes) until you're facing the garden wall of a house – you must turn either left or right.

Turn right – this is **Prolongación Lázaro Cárdenas**.

Continue straight (do **not** make the left turn almost immediately after this right). Lázaro Cárdenas is a long, narrow street with walls on each side. When you're almost at the end (it eventually opens up into the **Riviera Alta** development), there's an entrance in the wall on the left side, with a concrete sign that says "**Los Olivos – Lázaro Cárdenas #96.**"

Turn into this drive. You'll be facing a black, wrought-iron gate, and on your left is an intercom console. Here's how to use this console:

1. The screen should say "**Bienvenidos a Los Olivos.**" **Press the down-arrow key**, and the screen will change to a list of house numbers and names.
2. **Use this down-arrow key to move the small arrow on the left of the list of names until it's opposite "03A - Musgrave."**
3. **Press the "Call" button.** This will ring our phone – we'll answer, and open the gate.

Enter the gate, and go straight ahead, up the hill – we're in the bright red house (#3A) at the top. For those of you with GPS, we're located at: **20.3035°N — 103.2507°W.**
